

SCIENTIFIC REPORTS OF THE FACULTY OF AGRICULTURE
OKAYAMA UNIVERSITY, JAPAN
Vol. 106, February 1, 2017

CONTENTS

Original paper

Compulsory Repetitive Learning to Improve Student Achievement and Performance in Fundamental Subjects Izumi, M. and Murata, Y.	1
<i>Ginkgo biloba</i> α -fucosidase with activity towards plant complex type <i>N</i> -glycans containing the Lewis a epitope: Purification and characterization Itano, S., Maeda, M., Md. Ziaur Rahman. and Kimura, Y.	5
Effect of shading on dry-matter production, yield and grain appearance quality of Vietnamese rice cultivars (<i>Oryza sativa</i> L.) in the paddy field Tran LocThuya. and Saitoh, K.	13
Effect of Beginning Date of Intermittent Low Temperature Treatments on Flowering of Tray-grown Strawberry 'Nyoho' Kinjoa, A., Hanada, A., Yoshida, Y., Goto, T., Yasuba, K., Tanaka, Y. and Yoshida, A.	21
Variations in capsaicinoid contents in the chili pepper (<i>Capsicum baccatum</i>) and its non-pungent accession Tanaka, Y., Hara, M., Goto, T., Yoshida, Y. and Yasuba, K.	27

Monograph

Enzyme-catalyzed synthesis and odor evaluation of both enantiomers of perfume compounds Kiyota, H.	33
Mitochondrial dynamics in mammalian oocytes Wakai, T.	39

Research Report

Fruit quality control using water management and simple water status detection methods in fruit tree leaves Morinaga, K.	43
Expansion of large-scale Paddy field management entity in the regions advanced in agricultural structure Ohanaka, K.	51
